

## COVER LETTER OF VAISHNAV TEELUCK

I would like to express my interest in working at your firm and want to thank you in advance for considering my interest in becoming an asset to your organization. I am a passionate and self-motivated developer and technophile who is driven to analyzing systems and software and solving problems. Some of my other interests include cars, music and exercise.

From a young age I was exposed to various types of technologies and always enjoyed learning more about the field. I enjoy keeping up to date with the latest developments in hardware and software related content, and spend time reading articles based on tech. This is one of the reasons I was drawn towards pursuing Information Technology in my tertiary education.

I completed my Diploma in ICT: Applications Development at Durban University of Technology. I had been through various modules consisting of cybersecurity, UX and UI design, networking, information systems as well as mobile (Java), application (C#) and web development (C#). I have done 3 major projects developing websites with a team of 6 individuals, as well as 2 smaller projects in mobile development and UX and UI design. I have completed a few certificates with Cisco. I will be pursuing my Advanced Diploma (NQF 7) in ICT in the year 2023, and hope to further my studies in the years to come.

Music has played a big role in my life as I come from a family which is very musically orientated. My journey as a musician has taught me how to be disciplined and assisted me in my life as a student to give me the focus and strength that I needed. I am trained in western and eastern classical. I have studied Double Bass through the Royal School of Music in London and completed my Grade 5 certificate. I participated in the KZN Youth orchestra as well as the South African National Youth orchestra. I have completed my Grade 3 certification in western classical music theory. I also studied eastern classical music in Tabla, Sitar and Guitar under my dad's guidance, who is a professional and full-time musician. I do still play music on a frequent basis and do participate in performances.

Please take a moment to review my enclosed resume and accompanying credentials. I appreciate the opportunity provided and look forward to your response.

Thank you for your consideration.

Yours sincerely

Vaishnav Teeluck
